REASONS FOR ALLOWANCE

1. Claims 1-2, 4-13, 15-28, 30-38, and 40-41 are pending in this application and presented for examination.
2. The following is an examiner's statement of reasons for allowance: the prior art fails to disclose or reasonably suggest the claimed invention, with particular emphasis on a playback queuing mechanism to first process the received data packets from the network to provide the received data packets to the under-run forecasting mechanism and to build latency in the supply of received data packets based on the under-run predicted time and the measured fluctuations in arrival of data packets, wherein the client is separated from the server by the network such that generation of the under-run predicted time, measurement of the fluctuations, and building of the latency are based on received data packets from the network in the client.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
